SYSTEM

Flat mopping system with pockets, to be used either pre-soaked, soaked on demand with soaking station or with handles with tank
Ideal for any surface and kind of dirt thanks to the combination of the 3 fibres: cotton for its absorption power, microfibre for its dirt collecting power and polyester for greasy dirt and low friction

GREEN BOX

DECITEX of the fibres

Microfibre: 0,52 DTX

Efficient: microfibre requires less chemical to remove dirt and bacteria, reducing water and chemical consumption

Advantages

- **Long durability:** pocket mops last twice as much as strap tape mops
- **Easy:** mop changing is easy and quickly
- **Multipurpose:** the combination of different fibres allows making many operations with one single mop
- **Highest hygiene:** microfibre penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria
- **Touch-free:** the detaching system avoids any contact with the dirt

Material

Yarn: polyester, cotton, microfibre - Support: polyester

Packaging: [click here to see the environmental labelling of packaging](#)

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the laundry detergent packaging

Perform a pre-wash in cold water without laundry detergent to remove any residual product used during cleaning operations

Recommended use of professional textile laundry detergent

Do not use fabric softener

Do not use laundry detergents with Ph > 11

The use of laundry nets is recommended to speed up and make laundry operations more hygienic

Specific mop instructions

Washing temperature max 90° C, recommended 60°

Bleaching possible, do not use chlorine

Do not tumble dry or in a dryer
