SYSTEM

Handle for TTS frames
Ideal for a professional cleaning with the highest ergonomics

Advantages

- **Handy:** reduces wrist movements by 75% in comparison with traditional systems, preventing the onset of occupational injuries
- **Handy:** the handle is designed to offer 360 ° rotation, ensuring maximum ergonomics to the operator
- **Safe:** the twisting handle locks with a click, allowing you to rest the tool safely on the wall
- **Comfortable:** the rubber inserts ensure an effective, stable and comfortable grip
- **Ergonomic:** lightweight and adjustable in height, prevents fatigue and incorrect posture

Compatibility

Compatible with Infinity frames

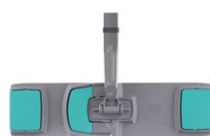

Material

Aluminium, polypropylene, rubber
