

Twisted Mop

Twisted mop in viscose, cellulose and synthetic fibres

Technical information

code	notes	cm	C	pcs	kg	m ³
00001730			☐	50	13,85	0,11

SYSTEM

Mop system with clamp to be used with flat or jaw wringer
Ideal to clean residual dirt that requires recurring rinsing of the fibres

Advantages

- **Highly absorbent:** thanks to their higher weight, mops absorb a lot of cleaning solution providing wider floor coverage
- **Longer mop's life:** it does not get moldy or rot avoiding bad smells
- **Effective:** more abrasive than cotton
- **Easy:** easy to use
- **Resistant:** twist yarn grants longer mop durability and reduces fraying and unraveling

Compatibility

Compatible with jaw and flat wringers

Material

Nonwoven fabric (35% polyester, 65% viscose)

Packaging: [click here to see the environmental labelling of packaging](#)

26/06/24

Features

It can be used with bleach

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the laundry detergent packaging
Perform a pre-wash in cold water without laundry detergent to remove any residual product used during cleaning operations
Recommended use of professional textile laundry detergent
Do not use fabric softener
Do not use laundry detergents with $\text{Ph} > 11$
The use of laundry nets is recommended to speed up and make laundry operations more hygienic

Specific mop instructions

Washing temperature max 30° C

Bleaching possible, do not use chlorine

Do not tumble dry or in a dryer
