

Twisted mop with cap and screw

Twisted mop in viscose, cellulose and synthetic fibres, with universal screw connection

Technical information

code	notes	cm	C	pcs	kg	m ³
00001890			☐	50	11,04	0,09

SYSTEM

Socket mop system with plastic ferrule, to be used with funnel wringer
Ideal to clean residual dirt that requires recurring rinsing of the fibres

Advantages

- **Effective:** it effectively removes and retains dust and residual dirt
- **Efficient:** more abrasive fibres in comparison to cotton, less cleaning solution required
- **Longer mop's life:** it does not get moldy or rot avoiding bad smells

Material

Nonwoven fabric (35% polyester, 65% viscose) - The net weight of the single piece can vary by +/- 5%
Packaging: [click here to see the environmental labelling of packaging](#)

Features

It can be used with bleach

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the laundry detergent packaging
Perform a pre-wash in cold water without laundry detergent to remove any residual product used during cleaning operations

Recommended use of professional textile laundry detergent

Do not use fabric softener

Do not use laundry detergents with $\text{Ph} > 11$

The use of laundry nets is recommended to speed up and make laundry operations more hygienic

Specific mop instructions

Washing temperature max 30° C

Bleaching possible, do not use chlorine

Do not tumble dry or in a dryer
