SYSTEM

Bucket with divider to separate rinsing water from chemical and professional flat wringer for small environments
Ideal for cleaning medium-small areas where it is necessary to rinse the mop

Advantages

- **Effective:** separation of cleaning solution from rinsing water allows a better cleaning result, less waste of water and chemical
- **Handy:** the plastic cross handle facilitates transport, no need to take out the wringer

Compatibility

Compatible with flaps, pockets system and mops

Material

Polypropylene

Packaging: [click here to see the environmental labelling of packaging](#)
