SYSTEM

Cloth for manual cleaning of surfaces, can be used dry or soaked with detergent or disinfectant solution
The best solution for a quick and precise cleaning of surfaces

Advantages

- **Disposable:** greatest control of cross contamination
- **Effective:** the special pierced layer grants an effective dirt collection
- **Absorbent:** excellent absorbency and homogeneous release of the solution
- **Resistant:** TNT fibres reduce the risk of accidental tearing compared to paper
- **Dry use:** ideal for industry due to its excellent oil absorption capacity and good solvent resistance

Compatibility

The cloth is compatible with disinfectant solutions and does not alter the active ingredients.
The cloth is suitable for use in the food industry for surface cleaning but not for direct food contact.

Material

65% viscose, 35% polyester

Packaging: [click here to see the environmental labelling of packaging](#)

Features

Absorbency per cloth: 16-20 ml
Weight per sqm: 50 gr
Pallet 78 packages (size: 80x120x220 cm)

Instructions for use

Add 1.5-1.8 L of solution to a complete roll.
Ideal for soaking in 4 L bucket with lid. The closable window facilitates the extraction of the individual tears.
