SYSTEM

Glass cleaning system with fleece and squeegee
Ideal for a traditional use

Advantages

- **Efficient:** the support is equipped with special storage cells that increase the surface washing capacity
- **Ergonomic:** the grip shaping is designed to ensure maximum ergonomics and comfort
- **Safe:** remains firmly attached to the pole during use, preventing accidental release
- **Effective:** easily removes the most difficult dirt without leaving residue or streaks
- **Abrasive:** the abrasive side allows to remove the encrusted dirt

Compatibility

Compatible with telescopic poles

Material

Structure: polypropylene - Washer sleeve: PES - Abrasive: polyester
Packaging: [click here to see the environmental labelling of packaging](#)

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the laundry detergent packaging
Perform a pre-wash in cold water without laundry detergent to remove any residual product used during cleaning operations

Recommended use of professional textile laundry detergent

Do not use fabric softener

Do not use laundry detergents with $\text{Ph} > 11$

The use of laundry nets is recommended to speed up and make laundry operations more hygienic

Specific mop instructions

Washing temperature max 60° C

Bleaching possible, do not use chlorine

Do not tumble dry or in a dryer
