SYSTEM

Flat mop system with double sided frame, to be used with pre-soaking, soaking on demand with soaking station or with the convenient wringer
Ideal for environments with ingrained dirt, the abrasive side scrubs and the microfibre side collects dirt

GREEN BOX

DECITEX of the fibres

Wet 1 fabric

Microfibre: 0,16 DTX

Strip fabric

Polyester: 50 DTX

100% cleaning material, no waste along the whole product's functional life

Advantages

- **Multipurpose:** the combination of different fibres allows making many operations with one single mop
- **Easy:** mop changing is easy and quickly
- **Touch-free:** the detaching system avoids any contact with the dirt
- If used with the wringer, you go back to the bucket to rinse and wring out the mop half the times as the two cleaning sides of the mop double the dirt collection power

03/12/25

Material

Wet 1 fabric: 85% polyester, 15% polyamide - Strip fabric: polyester
Packaging: [click here to see the environmental labelling of packaging](#)

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the laundry detergent packaging
Perform a pre-wash in cold water without laundry detergent to remove any residual product used during cleaning operations
Recommended use of professional textile laundry detergent
Do not use fabric softener
Do not use laundry detergents with Ph> 11
The use of laundry nets is recommended to speed up and make laundry operations more hygienic

Specific mop instructions

Washing temperature max 90° C, recommended 60°

Bleaching possible, do not use chlorine

Tumble dry or in a dryer possible with low program
