SYSTEM

Flat mopping system with pockets, to be used either pre-soaked, soaked on demand with soaking station or with handles with tank
Ideal for any surface and for particle dirt thanks to the high dirt collection power of yarn and microfibre

GREEN BOX

DECITEX of the fibres
Microfibre: 0,58 DTX

Efficient: microfibre requires less chemical to remove dirt and bacteria, reducing water and chemical consumption

07/07/25

Advantages

- **Efficient:** the tufting system bonds fibres to the support, granting a long life cycle to the mop
- **Increased resistance:** the double stitching at the points of greatest effort ensures a longer life to frequent use and washing
- **Maximum absorption:** the thick weave of the yarn ensures large floor coverage, saving water and detergent
- **Highest hygiene:** microfibre penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria
- **High-performance:** the cleaning solution is evenly distributed on the floor, making cleaning easier
- **Easy:** mop changing is easy and quickly
- **Touch-free:** the detaching system avoids any contact with the dirt
- **Long durability:** pocket mops last twice as much as strap tape mops

Material

Yarn: microfibre (100% polyester) - Support: polyester

Packaging: [click here to see the environmental labelling of packaging](#)

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the laundry detergent packaging
Perform a pre-wash in cold water without laundry detergent to remove any residual product used during cleaning operations

Recommended use of professional textile laundry detergent

Do not use fabric softener

Do not use laundry detergents with Ph > 11

The use of laundry nets is recommended to speed up and make laundry operations more hygienic

Specific mop instructions

Washing temperature max 90° C, recommended 60°

Bleaching possible, do not use chlorine

Tumble dry or in a dryer possible with low program
