SYSTEM

Bucket with divider to separate rinsing water from chemical and combined wringer
Ideal for semi-professional high performance cleaning of horizontal and vertical surfaces

Advantages

- **Effective:** separation of cleaning solution from rinsing water allows a better cleaning result, less waste of water and chemical
- **Handy:** wringing through pedal reduces operator's efforts
- **Ergonomic:** the hook system of the mop eliminates unnecessary bending of the operator
- **Time-saving:** closing system of the frame through pedal
- **Versatile:** it can be easily used to clean horizontal and vertical surfaces
- **Highest hygiene:** microfibre penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria

Compatibility

Compatible with any handle with hole with diameter from 18 to 23 mm

Material

Bucket and wringer: polypropylene, steel and rubber - Frame: polyamide, glass fiber and polypropylene - Mop: microfibre yarn (80% polyester, 20% polyamide) and polyester support
