SYSTEM

Bucket with divider to separate rinsing water from chemical and combined wringer
Ideal for semi-professional high performance cleaning

Advantages

- **Effective:** separation of cleaning solution from rinsing water allows a better cleaning result, less waste of water and chemical
- **Handy:** wringing through pedal reduces operator's efforts
- **Ergonomic:** the hook system of the mop eliminates unnecessary bending of the operator
- **Time-saving:** closing system of the frame through pedal
- **Multipurpose:** the combination of different fibres allows making many operations with one single mop

Compatibility

Compatible with any handle with hole with diameter from 18 to 23 mm

Material

Bucket and wringer: polypropylene, steel and rubber - Frame: polyamide, glass fiber and polypropylene - Mop: polyester yarn, cotton, microfibre and polyester support
