SYSTEM

Bucket with divider to separate rinsing water from chemical and combined wringer
Ideal for semi-professional high performance cleaning

Advantages

- **Effective:** separation of cleaning solution from rinsing water allows a better cleaning result, less waste of water and chemical
- **Handy:** wringing through pedal reduces operator's efforts
- **Ergonomic:** the ergonomic design of the frame ensures an easy set-up of the tool
- **Hygienic:** the dirty mop can be quickly detached, without any physical contact with dirt
- **Safe:** flat mop remains firmly attached during use, thanks to the anti-slip device
- **Highest hygiene:** microfibre penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria

Compatibility

Compatible with any handle with hole with diameter from 18 to 23 mm

Material

Bucket and wringer: polypropylene, steel and rubber - Frame: polyamide, glass fiber and polypropylene - Mop: microfibre yarn (85% polyester, 15% polyamide) and polyester support
